

NZPS 2024

TOPP
DAY

The Occasional Pain Practitioner Day Pain for the Generalist in Aotearoa

In conjunction with the New Zealand Pain Society 2024 Annual Scientific Meeting

Saturday 23 March 2024 8.30am – 5.30pm
The Dunedin Centre, Dunedin, New Zealand

“Pain is the most common reason that people attend healthcare, however many clinicians find these consultations challenging.

Join us for a practical and clinically focussed one day workshop, which aims to equip you with a toolkit to provide good care for your patients living with pain, including commonly encountered pharmaceuticals and non-pharmacological management strategies.

This event is suitable for any healthcare professional who works with people with pain as part of their broader practice, but outside of specialist pain centres – GPs, practice nurses, HIPs, SMOs, RMOs, community & hospital nurses and physios, occupational therapists and psychologists.”

View the programme at www.nzps2024.nz

The “TOPP Day in conjunction with the New Zealand Pain Society Inc. Annual Scientific Meeting 2024” activity has been endorsed by The Royal New Zealand College of General Practitioners (RNZCGP) and has been approved for up to 7 CME credits for Continuing Professional Development (CPD) purposes.
